

GERMAN STEAMER AGROUND

Sixty-Eight Persons Aboard Vessel in Danger of Sinking Off California Coast.

(By Associated Press.)
SANTA BARBARA, July 21.—The German steamer Anubis, of the Kosmos line, bound from San Francisco to Hamburg, Germany, went ashore in Three Mile channel between San Miguel and Santa Rosa islands, thirty miles off Point Conception. Tugs have been summoned from San Pedro, Redondo and Port Harford to take off those aboard and render all assistance possible. The vessel is believed to have struck a sand bar lying half way across the channel, and it is probable that both steamer and her cargo will prove a total loss.
The Anubis struck shortly after midnight yesterday morning, during a heavy fog and news of the disaster reached Point Conception lighthouse last night when a life boat carrying Firstmate Dohren, Thirdmate Loewe and seven of the crew landed after a pull of over fourteen hours in a choppy sea. The men report the vessel in danger of breaking up within a few hours.
Sixty-eight persons were left aboard when the life boat departed. At the time Captain Von Zalzen ordered that an attempt be made to lighten the vessel by putting overboard a portion of the cargo, which consisted principally of grain valued at \$110,000. The vessel is valued at about the same amount. The mates said the vessel was leaking badly and that the fires had been extinguished.

TAFT'S SPEECH READY

WILL SUBMIT SAME TO PRESIDENT FOR EXECUTIVE'S REVIEW.

(By Associated Press.)
HOT SPRINGS, Va., July 21.—President Roosevelt will review, in advance, the speech Judge Taft will deliver in Cincinnati next Tuesday. In a statement this afternoon Taft said he had the highest regard for the president's judgment regarding subjects to be dealt with, and a keen appreciation of his wonderful ability and forceful expression. The judge will leave here tomorrow night, reach Sagamore Hill Thursday evening and will probably spend the night with the president. The speech will probably contain 12,000 words.

W. W. Powers of the Powership prodrome today offered an elephant to Judge Taft as a mascot in the fall campaign, which the judge gratefully declined.

TAFT BANNER IS WAVING AGAIN

(By Associated Press.)
LINCOLN, Neb., July 21.—High above the electric wires of the traction company the Taft banner, which met with such an ignominious fate the night before the nomination of Bryan was today again flung to the breeze. On either side of it an American flag was hung as a mute warning that it would be protected against a repetition of vandalism.

Most of the day was spent by Bryan in delivering short speeches on the issues of the coming campaign into a phonograph. On his own volition Bryan announced that he received \$500 from two concerns as compensation for work. The remittances were not retained by him but turned over to the state and county Democratic committee respectively as a personal contribution.

CANNOT ESCAPE BRYAN'S VOICE

(By Associated Press.)

CHICAGO, July 21.—The Democratic national committee has devised a method of getting action upon the "common people," whether the "common people," meaning those who patronize penny arcades and theatres, like it or not. Free cylinders carrying speeches by Bryan and other spellbinders and some extolling the numerous virtues of the Peerless One, have been distributed among all these places of entertainment, and they were sprung today. Throns who went to the arcades to hear sentimental songs were bombarded instead by the "cross of gold." Languishing swains and maidens who planned to hear the sentimental strains of "In the Shade of the Old Apple Tree," heard instead a fierce phillipian against the iniquities of the robber tariff on silk shoe strings.

In addition, lurid portraits of the Peerless One were flashed upon screens between the moving picture acts. In short, the Democrats "have the jump" on their opponents and have cornered the cheap theater and penny arcade opportunities to reach the people.

BISHOP POTTER IS DEAD

EMINENT EPISCOPAL PRELATE PASSES AWAY IN NEW YORK.

(By Associated Press.)
COOPERSTOWN, N. Y., July 21.—Bishop Henry Codman Potter of the Episcopal diocese of New York, died here tonight. Death followed a sickness of several weeks, which began with stomach trouble and developed into complications. For the past week Bishop Potter appeared to gain, but suffered a relapse yesterday, when the last hope of ultimate recovery was abandoned.

Bishop Henry Potter is probably the most widely known divine in America. He has always taken a deep interest in the political life of the nation and has written and spoken freely on a wide variety of educational and political subjects. He was instrumental in promoting friendly relations between labor and capital and in assisting in a number of reform movements in New York City. He was born May 25, 1835, and was consecrated bishop of New York in 1887, succeeding his uncle, Horatio Potter, who died in that year. His father was Bishop Alonzo Potter, also a learned ecclesiastic.

INSURANCE AGAINST BRYAN INCREASING

NEW YORK, July 20.—So great has been the demand for anti-Bryan insurance that brokers representing Lloyds kept the cable hot placing commissions with London underwriters. It is estimated that nearly \$2,000,000 of these risks have now been assumed by Lloyds, with the result that today the rate was increased to 12 guineas, which is equivalent to about 13 1/2 per cent. Until Thursday night it was 10 per cent.
All classes of business men were among the applicants for insurance today. A New England shoe manufacturer closed a policy for \$200,000 at 12 guineas premium. Brokers and speculators hedged against the market commitments to the extent of their possible loss, while a number of sporting men thought the odds of 9 to 1 which prevailed on Thursday, were sufficiently attractive to place large wagers. Many of them balked, however, at paying today's prices.

(By Associated Press.)
DENVER, July 21.—By an unanimous vote this afternoon the Western Federation of Miners instructed the executive board to use its influence for securing the appointment of a federal commission to investigate conditions in the Treadwell mining district, Douglas island, Alaska. This action was taken following a report that hundreds of miners were killed annually by reason of poor timbering; that when a man was killed the companies reported him as having "Quit work;" that the efforts of relatives and friends to trace his movements were afterwards fruitless.
A proposed amendment to the constitution providing for state organizations with no central head was killed.
An amendment providing that no member should join any military company without an order to do so by the governor was killed.
W. D. Haywood, former secretary-treasurer, addressed the convention advocating closer relation with the United Mine Workers. He also thanked the members for support given him while on trial in Idaho.
